

Luminescent
Solar Power

New Solar Energy technology

24/7/365

New revolutionary external-heat engine
That is the 1st true realization of Sterling
engine.

Based on:

Bubbles and heat transfer fluid flow in a
nozzle

We are looking for MSc or PhD students to optimize the engine
via state of the art CFD simulations

Please contact Prof. Carmel Rotschild

carmelr@Technion.ac.il for details
